

Creamsource Micro Lens 20 Degree

Outsight Creamsource Medium Angle Drop-In Lens, 20°

Reference: CSU-LENS-20

EAN13: -

20° Medium Angle Holographic Lens to fit Creamsource Micro.

This lens can be dropped into the filter rail on the front of the fixture to increase the beam angle to 24°. Not to be confused with diffusion, this is a holographic lens which widens and softens the beam with over 90% efficiency.
