

Creamsource Micro Lens 60 Degree

Outsight Creamsource Wide Angle Drop-In Lens,
60°

Reference: CSU-LENS-60

EAN13: -

60° Wide Angle Holographic Lens to fit Creamsource Micro.

This lens can be dropped into the filter rail on the front of the fixture to increase the beam angle to 61°. Not to be confused with diffusion, this is a holographic lens which widens and softens the beam with over 90% efficiency.
