

Creamsource Micro Lens 100 Degree

Outsight Creamsource Extra Wide Angle Drop-In Lens, 100°

Reference: CSU-LENS-100

EAN13: -

100° Extra Wide Angle Holographic Lens to fit Creamsource Micro.

This lens can be dropped into the filter rail on the front of the fixture to increase the beam angle to 100°. Not to be confused with diffusion, this is a holographic lens which widens and softens the beam with over 90% efficiency.
