

Creamsource Mini Battery Mount V Lock Style

Outsight Creamsource Mini Battery Mount V Lock Style

Reference: CSM-MOUNT-V

EAN13: -

Slides onto the back of the Creamsource Mini and allows operation from 2 x V-Lock batteries. Can be quickly fitted and removed from the back of the fixture, no tools are required.

Dual batteries is a requirement for reaching the minimum operation voltage of the Creamsource. With 2x 150WH cells you can expect around 1H runtime on a Creamsource Mini (minimum recommended cell size is 90W)
