Pick Your Spot

Zylight's Pro-Zoom family of LED ellipsoidal spotlights offers a choice of zoom ranges to suit any television studio, broadcast news, or live theatre project. Choose from the Pro-Zoom Wide (30-55 degree beam width), Pro-Zoom Medium (18-36), or Pro-Zoom Narrow (8-22). Zylight also offers the Pro-Zoom Plus Narrow, which features a brighter 230w LED engine and 8-22 degree beam width. Available in tungsten or daylight, Each Pro-Zoom also include integrated barn doors, built-in effects, and full DMX control with RDM compatibility.

Focusing Flexibility. Precise Projection.

The Pro-Zoom's double condenser optical system means clean, precise gobo projection – and its LED light engine stays cool, so you can create customized, low-cost color gobos on acetate film using an inkjet or laser printer.

- High-Powered Spot
- Crisp 200w LED Output
- Ideal for Broadcast News or Live Theatre
- Heat Protected Gobo Slot
- Fully Dimmable 0-100% with smooth control
- DMX-512 & RDM Ready
