

Stella 1000 US/UK/EU/AUS

A powerful compact lighting solution for 'run and gun' professionals. Stella 1000 single point LED (spLED) is a great choice for mobile content creators in need of a low profile on-camera light that is easy to travel with and powerful enough for use as a key interview light. Weighing just over 0.5 lb including the integrated Li-Ion battery, the Stella 1000 is at home on DSLRs as well as professional ENG rigs. With no cords to plug in or ballast warm-up periods, Stella is ready at a moment's notice and thanks to an extremely rugged waterproof construction; this powerful light can operate in any location regardless of weather or power availability.

Stella 1000

A powerful compact lighting solution for 'run and gun' professionals. Stella 1000 single point LED (spLED) is a great choice for mobile content creators in need of a low profile on-camera light that is easy to travel with and powerful enough for use as a key interview light. Weighing just over 0.5 lb including the integrated Li-Ion battery, the Stella 1000 is at home on DSLRs as well as professional ENG rigs. With no cords to plug in or ballast warm-up periods, Stella is ready at a moment's notice and thanks to an extremely rugged waterproof construction; this powerful light can operate in any location regardless of weather or power availability.

Stella 1000 Features:

- Integrated Li-ion battery: The Stella 1000 can run completely cord free for 90 to 700 minutes and because the battery is integrated into the device Stella is permissible in both checked and carry-on luggage.
- Multiple Power Options: For longer shoots simply plug Stella into any AC or DC power source including Gold-mount/V-mount battery "bricks" (with optional DTap cable) or add DC power with the Stella External Battery Kit..
- 120-degree Native Beam Angle: Stella's light output can be easily focused to 25° with the included snap-on Fresnel Modifier.
- High Output COB "Chip on Board" LED: Eliminates the multi-shadow effect that can be a problem with panel-style light sources while also keeping Stella's footprint small.
- Rugged Waterproof Construction: Designed to perform in the most challenging environments, Stella 1000 is waterproof to a depth of 100 meters (IP68 Rating) and tested to resist 1 meter impacts on concrete.

Stella 1000 Specs:

- Certified TLCI 93+, CRI 90+, CCT 5600 Kelvin
- Output up to 1,000 Lux at 1 Meter (113 Lux at 3 Meters) with Fresnel lens
- Integrated Rechargeable Li-ion battery provides 90-700 minutes of cord-free operation
- Sophisticated flicker-free firmware design
- Regulated lumen output - does not fade during use
- Dimming with continuous or stepped control

- Fan-free thermal management for silent operation
- Controlled beam angle from 120° (native) to 25° (with modifier)
- Colored LED indicators give accurate battery status
- Runs off wall power, DTAP, 10.5-18V, External Battery Kits
- Fast Charge of 1.75 hours, 80% charged in 1 hour
- Certified performance (FL-1 Standard)

What's in the BOX: Stella 1000 Lumen Light, 25° Fresnel, YS Mount, Cold-Shoe Mount, 1/4-20 Adaptor, 12V External Power Supply

Caractéristiques :

Poids (kg): 0,277

Dimensions en mm (L x l x H): 110x56x56

Angle d'ouverture: 120° native Air / 90° Water

IP: 68 (100m)

CRI/CQS: 91

Température de couleur: 5600K

Refroidissement: dissipateur thermique

Dimmer: Continu ou Echelonné

Temps de charge: 1h 45min

TLCI: 93

Lumens High: 1000

Runtime High: 90 minutes

Batterie Intégrée: Oui

Type de Batterie: Li-Ion
