
FILM AT 11 KIT (200 Series)

Introducing the little brother to the original XTENDER® articulating arm. The Film at 11 Kit is a smaller version of our full sized ENG arm.

Reference: X-FAE-200
EAN13: 859005002393

The XTENDER® FILM AT 11 KIT (200 Series)(X-FAE-200) features the next generation in articulating arms. This kit features the totally updated X-M-200 Articulating Arm which is stronger than the previous version and has the ability to micro adjust and lock the tension.

This arm is great for supporting lights and small monitors up to 11" away from the camera. When arm is collapsed it will lay parallel to the camera handle. This arm mounts 1/4"-20 female or male to accessory and 1/4"-20 or shoe to camera.

This kit is recommended for ENG or Mid Size Cameras.

This kit includes:

1-11" XTENDER® Articulating Arm (X-M-200)
1-High Torque Shoe Mount (X-HTSM-10)
1-1/4"-20 Locking Screw Mount (X-LCSM-10)
1-Dual Tightening Monitor/Light Mount (XL-MM-20)
