
210 Friction Mount w/High Torque Shoe Mount

Introducing the XTENDER® 210 Series Friction Mount Kits for Filmmaking with Friction Panning. Choose Shoe, Screw, Light Post or Rod Mounting.

Reference: X-FM-210-10

EAN13: 859005002744

The Sleek Designed XTENDER® X-FM-210 Friction Mount Kit with High Torque Shoe Mount is extremely durable and can handle more weight than ever before. With the slight turn of a knob you now have the ability to micro adjust both the panning and tilting friction of the mount. Looking for a great mount for your monitor, light, digital recorder, etc., well this is it! This kit comes with the Offset Adapter (X-FMOA-10) which is used for monitors which have the connecting ports directly underneath.
