

Atomos Right Angle Adapter for Inferno and Flame Series Monitors

The XTENDER® No-Twist Adapter for ATOMOS Inferno and Flame Series Monitor/Recorders was made to fit the unit snugly to prevent unwanted twisting.

Reference: X-ANTA-10
EAN13: 859005002836

Have you been having problems with your monitors twisting and spinning on there mounts? Well look no further, the (X-ANTA-10) No-Twist Adapter is made specifically for the 1/4"-20 mounting locations underneath and on the top of the ATOMOS Flame and Inferno Series Monitors/Recorders. This brand new adapter fits snugly around the unit to prevent twisting.

This adapter mounts directly to the XTENDER® *Friction Mount, plus all XTENDER® 200 Series Articulating Arms.

*The larger Friction Mount tightening knobs can be used instead of the knob included in this kit.
