

Cable Lock for SmallHD 700 Series Monitors

The All New XTENDER® - smallHD 700 Series Cable Lock was made to lock in your SDI and HDMI cables into the 700 Series Monitors.

Reference: X-ACC-700-CBL-LOCK
EAN13: 859005002799

The X-ACC-700-CBL-LOCK is a Brand New product that was created in collaboration with smallHD specifically for the smallHD 700 Series Monitors. This unit weighs just 1.7 ounces and very simple to use.

This lock was specifically designed to protect the SDI mounts on your monitor. To use, mount your *SDI cables to the monitor then slide the lock into place and tighten the thumb knob. The 500 Series Cable lock was also designed to lock in your *smallHD HDMI Cable. Just mount the cable lock then line up your HDMI male end to the smallHD female end and press your cable firmly into place. The HDMI portion can also be used with smaller dimension cables as an HDMI passthrough.

Stop waisting your money on expensive repairs and keep your investment safe.

*Works with most SDI cables

*This lock works best with smallHD brand HDMI Cables with a head size approx. 0.785in x 0.145in.

*Cables not included"
