
12000W PARLIGHT

Lightstar Par Light series used aluminum parabolic reflector, it brought up reflective effect of coaxial bulb to reach in highest level. It has a perfect command of lighting application with different lens in five positions.

Reference: LSP-004

EAN13: -

Main features:①Special parabolic reflector, output rate of light reflection>94%
②Aluminum alloy material, corrosion-resisting, heat resisting
③Different lens meet different lighting effects
④Adjust light from spot to flood for different lighting effects

Caractéristiques :

Poids (kg): 65
Lampe: 12000W Parlight UV Lens
Dimensions en mm (L x l x H): 820 x 800 x 1098
IP: 23
Température de couleur: 5600K
MODEL NO.: LSP-004
UV Lens: 500mm
Compliance CE: yes
Barndoor: 535mm
Diffuser frame: 530mm
Stand: LS-083
Electronic Ballast: EB 12000W/18000W
Extension cable: 15m
HMI: 12000W/160V/G38
