Reference: FF3808Y50

EAN13: -

IFF Pole Operated Pantograph suspends and positions luminaires with loads of up to 40kg (88 Lbs). It is a versatile suspension unit for small, medium and large studios.

The pantograph can be extended via twin wire ropes. The self-locking drum winch with two steel cables support loads under static and dynamic conditions. The specially designed double scissors mechanism adds extra stability and is furnished with cable clips to support luminaire power cables. It is dynamically and statically irreversible thanks to its static and dynamic efficiency (
