

ARTURO 1 - 1250W STUDIO SOFTLIGHT

A range of three tungsten halogen studio softlights for 1250W, 2500W and 5000W operation

Accepts 189 mm linear tungsten halogen lamps at 1250W, 1000W or 625W

Suitable for studio and location

Optical system ensures shadowless indirect fill light from secondary reflector design

Asymmetric beam distribution gives constant illumination as a subject approaches the source

Reference: 26510

EAN13: -

Designed for the small studio or as a location fill light, Arturo 1250W provides virtually shadowless diffused illumination. The asymmetric beam distribution offers a constant and even illumination.

Optional eggcrate accessories may be fitted for directional control of the beam spread.
