Reference: 427B-4,0

EAN13: -

4 sections, 3 risers operating pole.

The hook facilitates tilting, panning, focusing or re-aiming of lighting fixtures mounted high.

Available in two different length. The operating pole can be used manually or with portable drill with sufficient power (14V to 18V). Specific designed clips (FF3861 Kit of 2 pcs.) mounted on the operating cup (see drawing) will assure a precise and firm hooking. Special design of the hook for vertical and horizontal positioning of spring pantographs.
