

## Diffusion Skirt Short

Diffusion Skirt Short

Reference: 01-02-03-03-ds-s

EAN13: -

The Diffusion Skirts are used for illuminating entire rooms with soft, even light by simply attaching the Skirt to the Reflector with the zippers. The Diffusion Skirts can be covered with our black skirt covers, which acts as a Gobo, and provides more directional control of the light output from the fixture. In addition, the Skirts are collapsible down to a third of the original size.
