
Softbox Soft Grid 40°

1 x Softbox Soft Grid 40°

Reference: 02-02-03-02-s

EAN13: -

The perfect complement to the Softbox and Lantern is the Soft Grid, which directs the output and controls spill light. Reduces the near-to-far light ratio, which allows you to have more even lighting when a subject is moving towards or away from the light. It has a 40° cut off angle. It is attached with Velcro to the inner sides of the Softbox.
