To improve the positioning flexibility of our tripods, a shorter centre column is now available as an accessory which can be ordered separately. If you need to work with legs set at the third angle of inclination (about 60°) but still require the possibility to move the camera up and down to achieve perfect adjustment for the shot, this shorter column replaces the one supplied with the tripod. The lengths are: 17.5cm for the 055XCCSB.
