
Manfrotto 190CXV3

190 Cf Tripod View-3 Section

Reference: 190CXV3

EAN13: 8024221542318

Manfrotto

With high-quality carbon fibre legs, the 190CXV3 provides a base strong enough to support 11 pounds of optical equipment, yet weighs only 3.11 pounds. The rigidity provided by the carbon fibre legs aids in decreasing vibration, which improves image quality during observation or photography. Four preset independent leg angles, quick action leg locks, and cushioned leg wraps complete this professional quality tripod.
