

Video HF 200m

XW-HDU03RS/RA system is designed for transmitting uncompressed 1080P HDMI, HD SDI/SDI video and audio from any camera to field monitors in 3~200m (LOS).

Reference: XW-HDU03RS/RA
EAN13: -

XW-HDU03RS/RA system is designed for transmitting uncompressed 1080P HDMI, HD SDI/SDI video and audio from any camera to field monitors in 3~200m (LOS). It works on 5.1GHz~5.9GHz band radio frequencies and there are 0~9, total 10 frequency points for selection.

With high efficiency antennas, it transmits uncompressed video in 3~200m LOS with less than 1ms latency.

Caractéristiques :

Monture: Receiver can be with V-Type or 3-Stud mount
Distance: 200m(LOS) uncompressed video transmission
Latence: less than 1ms
