

200BM Bi-Color 7" LED Fresnel Light (Premium Pack)

The new Rayzr 7 200BM Bi-color is the most mobile and power efficient of the Rayzr 7 series. It can be powered by 12-24 V power solutions, for example through the optional V-Mount plate, without any reduction in brightness. Together with its compact size and light weight in comparison to other lights of its class this bi-color model is the go-to model for many on-the-go productions.
