
ROBIN DL4X Spot

Reference: ROBIN-DL4X-Spot
EAN13: -

Improved, brighter version of the ROBE RGBW LED module module allows the DL4X Spot fixture to utilize the specifically modified color mixing and dimming for extra smooth, stepless operation especially at minimum brightness levels while giving colour outputs brighter than a 1200W discharge unit, but with an average very eco-friendly power consumption of only 250 Watts. The optical system produces a very smooth, high quality light output of rich, beautiful colours with no shadows and utilizes a versatile zoom of 10 – 45 degrees. Effects features consist of a combination of static and rotating gobo wheels that have custom replaceable positions, variable frost, three-faceted prism, superfast iris and more... including full range dimming and variable strobe effects.
