
Basic Cineo Matchbox Kit

Versatile, portable Remote Phosphor Lighting for motion picture and television production.

Reference: 600.01

EAN13: -

The *Cineo Matchbox*™ is the latest in versatile, portable Remote Phosphor Lighting for motion picture and television production. At 3.25" x 5.25" x 1.5" and 15 oz, the *Matchbox* outputs a stunning amount of high-quality light at a variety of accurate interchangeable color temperatures. A wide range of input power lets you run *Matchbox* on any input voltage from 6-26 VDC, as well as AC with the included adapter. The *Matchbox* includes an on-board 0-100% flicker-free dimmer that works in conjunction with upstream *DMX* or remote dimmers. Available in a variety of color temperatures, the color quality perfectly matches other *Cineo* soft lights. The bottom of the fixture includes a standard 1/4"-20 tap, allowing for limitless mounting options. Ruggedly built from anodized aluminum, these small sources can easily withstand the most demanding applications in both the field and the studio.
