

Fresnel F8-200 Bi-Color - kit Studio

ZY 1005127

Principales caractéristiques

F8-200 Bi-Color LED Fresnel Light 2800K-6000K Studio Kit - Includes: F8-200 Bi-Color LED Fresnel Light 2800K-6000K, F8-200W Power Adapter, F8 Yoke AC Adapter Mount, F8 DMX Interface Box, Barn Doors, Snoot, User Guide, Safety Chain (Ref : ZY 1005127)

The F8 LED Fresnel from Zylight is the next generation of Fresnel lights. All of the hallmarks of a traditional Fresnel light are present; single shadow beam shaping through barn doors, continuous focusing and a smooth light field. The Zylight F8 adds wireless and DMX control, AC/DC powering, water-resistant IP54 rating, and very rugged construction for field reliability. Available in both 100 or 200w Tungsten and Daylight color temperature versions as well as a 365nm UV Black Light version, the Zylight F8 is extremely compact, durable and one of the most versatile Fresnel lights on the market.
