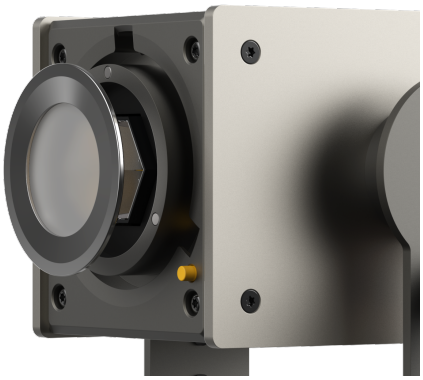
DIFFUSEUR FORT D75 – EPOS300



KV KEPOSHDD75

Principales caractéristiques

Kelvin Heavy Diffuser D75 pour EPOS300. - Reference : KV KEPOSHDD75 -

Diffused light disperses light evenly across a subject and softens shadows. In general, it produces a more flattering image.
The Kelvin Epos Heavy Diffuser D75 is the heaviest of the Epos diffusers. It widens the beam another few degrees making it the perfect match for smaller softboxes or when optics require a wider beam to function correctly, while still maintaining a minimum light loss of less than 0.2 stops from the D100.

Key features:
Thickest diffusion for Epos
Wider beam angle
Minimum light loss
Magnetic mounting

Spécifications techniques	Valeur de la spécification
Poids	0.094 kg
Dimensions	8.9cm x 0.67cm x 8.9cm
