

MICRO Bender kit PRO V-lock

CS KCSU2BPROV

Principales caractéristiques

Creamsource Micro Bender High CRI kit Pro - V-Lock -. (Réf : CS K-CSU-2-B-PRO-V)

The Micro Bender features a rugged and weather proof design, with an IP65 rating which means it can be used in all weather conditions. The Bi-Colour fixture can be discretely tucked away in a corner or rigged on a car rig for action scenes.

The Micro Bender is colour temperature adjustable from 2700 to 6500K and a CRI/TLCI of greater than 90. Drawing only 80W, it rivals the light output and punch typical of some 200W HMI Luminaires.

Unlike most bi-colour fixtures, the Micro maintains constant power output across the whole CCT range, so users always get the unit's full potential.

The 13° spot beam angle gives the Micro Bender all the punch you could hope for.

Ce kit comprend :

- Projecteur Micro bender Bi-color

- Bloc d'alimentation Creamsource Micro
- Cable d'alimentation
- Plaque de fixation du bloc d'alimentation.
- Lyre
- Plaque de diffusion WIDE, MEDIUM et NARROW
- valise de transport
- module de fixation batterie monture V-lock
