

SkyPanel S60C Lyre man

AR L0.0007064

Principales caractéristiques

SkyPanel. S60C. Lyre manuelle. Couleur Bleu Argent. Cable alim Schuko. (Réf : AR L0.0007064)

SkyPanel is a compact, ultra-bright and high-quality LED soft light from ARRI that sets a new standard for the industry. With a design focused on form, color, beam field and output, SkyPanel represents the culmination of more than a decade of research and development of LED technology at ARRI.

SkyPanel is available in several sizes: the S30, S60, S120, and S360. The S60 is a mid-range model, featuring a light aperture of 645 x 300 mm and accommodating the vast majority of applications. The S120 is twice as long as the S60, but weighs nearly the same. Its larger light aperture makes a great soft light even better. The S30 is a smaller, more portable version; half the length of the S60, it is perfect for on-the-go mobile applications.

The S360 is the largest and brightest SkyPanel with four times the output of the S60 and almost six times the aperture size. The S360 is perfect for lighting large areas with tuneable, soft light.

S30 and S60 models are available in fully color tuneable and remote phosphor versions. Incorporating features of ARRI's successful L-Series LED Fresnels, SkyPanel is one of the most versatile soft lights on the market, as well as one of the brightest.

Like the L-Series, SkyPanel 'C' (Color) versions are fully tuneable; correlated color temperature is adjustable between 2,800 K and 10,000 K, with excellent color rendition over the entire range. Full plus and minus green correction can be achieved with the simple turn of a knob, and in addition to CCT control, vivid color selection and saturation adjustment is also possible. Unlike other tuneable fixtures,

SkyPanel makes no sacrifice when it comes to light output. SkyPanel puts out a tremendous amount of light, in a soft and uniform beam field. Brighter than a 2 kW tungsten soft light or a 6 kW tungsten space light, the SkyPanel S60 has more than enough light for most applications. At the same time, the lamphead is able to perform beautifully at lower light levels. This range of illumination and color gives users an unprecedented amount of control.

S60-C is the iconic version of SKYPANEL line-up ;

- ARRI SkyPanel S60-C is a mid-range light featuring a 645 x 300 mm aperture, perfect for your lighting needs.
- Powerful and versatile, the S60-C can be used to create soft, even illumination that is suited to the most demanding requirements of any stage or film crew.
- With its wide range of colors, it can easily adapt to any environment or look you wish to achieve with your lighting setup.
- Whether you're creating a mood on the stage or capturing a dramatic cinematic look outside, ARRI SkyPanel S60-C has you covered!

SKYPANEL Classic accessories :

A wide range of accessories are available for the SKYPANEL family. Create stunning lighting effects with SkyPanel Classic accessories. Our range of soft lighting accessories, from egg crates to lanterns, offers you offers you for each of our models the ability to shape your light and make every scene unique. Professional lighting accessories like SNAPGRIDs, SNAPBAGs, and Octagons help you get the most out of your panel lighting setup, while mounting yokes and transport cases keep your equipment safe and ready for use on set.

Made in Germany to the high standards for which all ARRI products are known, SkyPanel is built to last – constructed from resilient materials and assembled by hand with great care. Other features include an on-board battery input for mobile applications, LAN port for network connectivity, USB-A port for firmware updates via thumb drive, and many more.
