

Volets Vortex4

CS CSV4BARNDOOR

Principales caractéristiques

Volet Creamsource Vortex4 . (Ref : CS CSV-4-BARNDOOR)

The Vortex4 Barn Door system is an all-new design optimised to limit light spill. This Creamsource accessory slides into the accessory rail of the Vortex4 and works in conjunction with the Diffuser accessory. The Barn doors have 4 aluminium flags that control light and concentrate the beam angle of the Vortex4.
