

Volets Vortex8

CS CSV8BARNDOOR

Principales caractéristiques

Volets Creamsource Vortex8. (Réf : CS CSV-8-BARNDOOR)

The Vortex8 Barn Door system is an all-new design optimised to limit light spill. This Creamsource accessory slides into the accessory rail of the Vortex8 and works in conjunction with the Diffuser accessory. The Barn doors have 4 aluminium flags that control light and concentrate the beam angle of the Vortex8.
